

# Incubator Aero-Sled with Fixed Height Trolley

The incubator Aero-Sled is E.A.S.A. - European Aviation Safety Agency/CAA certificated and cleverly designed to be compact yet fully equipped for infant safety and comfort throughout the journey by air and road. All equipment on the trolley is highly visible and easily accessible.

The fixed height trolley system is designed predominantly for ambulance use although is suitable for transportation on a variety of aircraft (space permitting).

- Lightweight
- Trolley base compatible with UK ambulance trolley locks
- Ergonomic design
- Equipment easily accessible
- Compact
- E.A.S.A./CAA certificated
